

Sleep is sure a luxury. Workstyles and lifestyles determine one's time for a break. As precious as that is. The bedroom is not a mere space but a temple of rejuvenation. Life never stops for the clock. It wakes up to another day of living it to the fullest. And if sleep is a luxury, Magniflex Mattress is

### MAGNIFLEX THEN

Back in the 60s Giuliano Magni created his first mattresses in a small workshop. It was the beginning of a journey which later turned into a revolution. In Prato, the world capital of fabrics, the sophisticated craftsmanship was combined with the most innovative ideas on rest and well-being. Since then, Magniflex has been helping over 50 million people across the world sleep better, thanks to the solutions and models designed to meet the needs of comfort, relaxation and health. Over the last 60 years. the passion for research and investment in innovation, design and state-of-the-art production systems have turned the name Magniflex into a universal synonym for comfort and well-being.

### MAGNIFLEX TODAY

The company is present across the globe in 100 international markets with showrooms in Florence, Milan, New York, Tokyo, Cyprus, Singapore, Dubai, Prague, Kiev and Moscow. A youthful, resolute management team is following the path laid out by the President Giuliano Magni with an entrepreneurial approach that is deeply rooted in tradition but has an increasingly global strategy. Over 60 years of history and over 100 products (a complete range of products including mattresses, bed frames, pillows and sleep accessories) 10,000 mattresses are produced every day. Magniflex exports its products to 100 countries. Over 50 million people worldwide sleep on a Magniflex mattress.

## CRAFTED IN ITALY DESIGNED FOR THE WORLD

From the land of art, we bring you a rare masterpiece. Handcrafted by seasoned artisans with immense attention to detail, impeccable quality and the world's most innovative features, we present to you a priceless possession loved the world over.

Λ SUCCESS STORY
OF 60 YEARS

"WE WORK IN THE MIDDLE OF OUR HILLS.
WE COULD NEVER DO ANYTHING TO HARM THEM"

Magniflex has always worked in the name of environmental responsibility. The entire production is designed to support sustainability and the company has reduced CO2 emissions thanks to the use of solar photovoltaic panels, as well as the invention of the patented vacuum packaging system, which allows to handle 13 mattresses at once instead of only 3. This translates into fewer trucks

in circulation. Our constant ecological commitment is also recognized through the certifications like - OEKO-TEX®, owing to the absence of toxic substances, and GOTS, due to the use of fabrics that are 100% organic.

## WE HAVE A DREAM WE WANT TO SEE COME TRUE. OR RATHER, 17 OF THEM.

Magniflex has adhered to the ambitious Sustainable Development Goals project of the United Nations, which aims at achieving 17goals by 2030. These 17 objectives are considered essential to ensure a better and more sustainable future for all inhabitants of planet Earth.

# **SUSTAINABLE DEVELOPMENT**

13 CLIMATE ACTION

14 LIFE BELOW WATER

The 'Made in Italy' tag
that delivers innovative
sleep technology.
This is combined with
our artisan sensibilities to
create unique products.
Today Magniflex is synonymous
to the Made in Italy mark
for its Quality, Craftsmanship
and Innovations
in Technology.

"Made in Italy," is synonymous with a guarantee of quality worldwide. Our artisan sensibility and Italian genius give life to unique products. Today, Magniflex is a large international reality, considered a spokesperson for "Made in Italy". Every customer, wherever they are, knows they can find unparalleled passion and dedication in their Magniflex mattress.

## AN EXHAUSTIVE LINE UP OF CERTIFICATIONS THAT WILL PUT YOU TO SLEEP.

MEDICAL DEVIC

EC DECLARATION OF CONFORMITY, MEDICAL DEVICE

UNIVERSITY OF FLORENCE

LGA CERTIFIEED

OKKO-TEX STEP [SUSTAINABLE TEXTILE PRODUCTION]

#### INTERNATIONALLY CERTIFIED FOR QUALITY

#### ACA - AMERICAN CHIROPRACTIC **ASSOCIATION**

One of the most important trade associations in the United States has certified the beneficial effect of the MagniStretch mattress, which stretches and relaxes the back.

#### CFR1633. FIRA

Flame-retardant certifications that confirm the Company's compliance with the applicable laws and standards for consumer protection when it comes to ensuring flame-retardant safety of the products.

#### UNIVERSITY OF FLORENCE

Tests and studies conducted on Ergonomics in collaboration with the University of Florence.

#### SUSTAINABLE LOGISTICS 2015

The Company takes care of the environment, starting with the planning of a combined road and rail transport logistics, which optimises the advantages of both. In 2015, this has led to a reduction of carbon dioxide emissions of more than 45,100 kg\*. The data are based upon the "ECO TRANS IT 2008" study by the Heidelberg Institute for and environmental research, as well as on the DEKRA Paneuropa Rösch gmbh DIN ISO 1400 1 certification.

#### EC Declaration of conformity, MEDICAL DEVICE

Warrants to the consumer that the product is manufactured in accordance with standards falling under reference standard EU 745/2015 on medical devices. Allows consumers to deduct expenses incurred for such products from their annual income statement.

#### **AJA EUROPE**

Certifies that the Company's

management systems are compliant with standard BS EN ISO 9001:2015. ensuring high manufacturing standards.

#### MADE IN ITALY

100% Made in Italy Quality Certificate. Certifies that all the design, production and supplies of raw materials took place in Italy

#### GOTS (GLOBAL ORGANIC TEXTILE STANDARD)

Issued by the Institute for Ethical and Environmental Certification, the certificate confirms that the fabrics used for the Toscana line made entirely from organic materials, while guaranteeing the utmost protection of human beings and the environment.

#### OEKO-TEX® CLASS I

The OEKO-TEX® CLASS I ensures the absence of substances that are toxic and harmful to people and the environment.

#### OEKO-TEX® STEP (SUSTΛINΛBLE TEXTILE PRODUCTION)

Certification is an evaluation system which ensures the application of high standards and best practices in the management of its environmental performance, social responsibility, production quality, and protection of workers' health and safety.

#### MED

Naval Directive MED 90/2014/EU certification attesting that the product has successfully passed tests on combustion, fire resistance and the emission of noxious fumes, in accordance with the applicable SOLAS (Convention for the Safety of Life at Sea) and IMO (International Maritime Organization) technical rules and the applicable European standards. This certification means the Company's products are approved for installation on ships and ferries.

#### **MEMOFORM**

Memoform was developed to respond to body weight rather than heat. Such property allows Memoform to resist deformations and quickly resume it's original shape while avoiding the unpleasant feeling of sinking in the mattress

#### THE IDEAL COMFORT FROM HEAD TO TOE

Memoform's composition has been especially developed by Magniflex and is different from any other visco elastic material present in the market.

## MEMOFORM AND MEMORY FOAM ARE NOT THE SAME THING

MAGNIFLEX MEMOFORM

It responds to your body weight rather heat, thus maintaining a constant comfort all through the night and seasons Its open-cell structure improves the breathability of the mattress, which remains dry and cool No toxic chemical odour coming out of the mattress The foam is processed with water to be extremely natural

STANDARD
MEMORY FOAM

It changes in response to body heat, becoming harder in colder weather and softer in warmer weather. Its non-breathable structure traps heat, making for an uncomfortable night's sleep. The synthetic material has an unpleasant chemical odour which is difficult to eliminate The foam is processed with chemicals, which can be harmful for people and the environment

#### HOW IT WORKS.

- 1. Creates a zero-gravity space between the shape of your body and the mattress, precisely adapting to the pressure applied by the body.
- Composed of high-density open cells that favor the passage of air inside the mattress.

Magniflex Memoform is patented owing to it's property to respond to the body weight instead of body heat.

Memoform has been awarded the prestigious OEKO-TEX CLASS I certification, which identifies those products that do not generate any risk for the consumer's health and are free of harmful substances for the skin.

## "THE MOST EFFECTIVE RESEARCH IS THE ONE THAT NEVER RESTS"

Our research is non-stop and has no limits. The goal at Magniflex is to invent innovative technologies to consistently improve our products and respond precisely to the needs of each individual customer and provide them with the perfect sleeping experience every night.

#### DUAL CORE TECHNOLOGY

## SLEEPING TOGETHER, BUT EACH IN THEIR OWN WAY

Each of us has a particular build that determines the type of support and the degree of softness of the mattress we find the most comfortable. Dual Core is Magniflex's response to this need. It's the innovative system we've invented to share the mattress with your partner, without having to compromise. Thanks to this innovation at the core which consists of sheets of materials with varying comfort levels. The double version features two separate parts that can be flipped and thus offer two different types of support - soft or firm.

SOFT-SOFT

FIRM-FIRM

**SOFT-FIRM** 

#### TWO DIFFERENT COMFORT LEVELS ALL IN ONE MATTRESS:

• DUAL COMFORT OPTION:

Each side of the mattress provides a different type of support. Open the mattress and choose the side you want to turn to obtain the desired comfort.

• PERFECT COUPLE'S HARMONY:

While sleeping, even when the partners have different preferences.

• SEPARATE AND REVERSIBLE LAYERS:

To meet the different needs of the couple and get the support you want.

• "FIRM" SIDE:

For a sturdier support, but nonetheless designed with the best comfort for the back and spine.

• "SOFT" SIDE: For a more delicate and cozy support.

#### MAGNISTRETCH

#### STRETCHING HAS NEVER BEEN THIS RELAXING

MagniStretch is a patented stretch technology, high-tech mattress developed in collaboration with the Department of Mechanical Engineering at the University of Zaragoza

#### CHAMPS CHOOSE MAGNISTRETCH

MagniStretch technology helps stretch the back while you sleep at night, which is why it has been chosen by star athletes such as Giorgio Chiellini and Stefano Tonut.

#### THE BEST POSSIBLE AWAKENING FOR THE BACK

Well-being is built into the MagniStretch Mattress.

- The layers in Elioform and Eliosoft are even more flexible thanks to the patented Stretch system, which provides ideal support to the spine
- The padding is made of Memoform a patented and anatomical material
- It features a micro-perforated and highly breathable band along the perimeter
- The outer lining is the product of the combination of soft viscose and Outlast<sup>®</sup>, a temperature-regulating fabric that absorbs excess heat and releases it when you need it

In July 2017 the ACA (American Chiropracti Association), the largest Chiropractic Associationin the United States, certified the beneficial effects of the MagniStretch mattress, which stretches and relaxes your back

## A REVOLUTION THAT HAS LEFT EVERYONE BREATHLESS

Our ongoing commitment to research and our passion for nature signified in 1986 with Magniflex's vacuum-packed technology invention that revolutionized the world of mattresses.

#### HOW IT WORKS.

- The mattress is bagged and sealed.
- The product is then compressed through a patented machine, a process that does not affect the perceived comfort.
- Using a mechanism inside the machine, the mattress is rolled up.
- Volume was reduced by 90% due to air elimination.

#### VACUUM-PACKING GUARANTEES:

- · Stable hygiene and consistent quality
- · Volume reduced by 90%
- Reduction of polluting emissions of CO2 (13 mattresses per m3).

### HIGH-TECH CORE MATERIALS

#### INNOVATION NEVER SLEEPS

All materials are OEKO-TEX®-certified, which stands as a guarantee that they are free from substances that are toxic or harmful for human and the environment.

#### **MEMOFORM**

Memoform is the most anatomical of all the materials we use in production and is designed to react to the weight of the body and to adapt perfectly to any type of build. This characteristic generates a pleasant feeling of ease and lightness while a person is asleep and helps the spine relax.

#### MALLOW FOAM

Mallow has anti-inflammatory, calming and soothing properties that make this material a source of well-being for the nervous system.

Experience soft and comfortable support that is ideal for your body.

#### MAGNIGEL FOAM

Magnigel Foam is the evolution of the first-generation gel, created in Magniflex's labs after years of research and specific tests. It is the most breathable and flexible material on the market. Its high-density makes it extraordinarily soft and comfortable, ensuring perfect support for the whole body. Magnigel Foam gives the mattress a feeling of freshness and softness, making you feel as though you are lying down on a cloud.

#### MAGNIFOAM BREEZE

Magnifoam Breeze is a breathable foam that is highly resistant and non-deformable over time. It is available in two versions: Eliosoft Breeze, for a soft support, and Elioform Breeze, for a sturdier support. It is enriched with eucalyptus extract, which enhances the sensation of wellness and freshness. A sheer breeze of pleasure.

#### **ELIOFORM**

Exclusively crafted with high-density microcellular foam for a complete orthopaedic and supportive feature that enables high breathability.

#### ELIOSOFT FOAM

Intricately designed, breathable foam for extra cushioning and comforting experience.

#### **ADVANCED FABRICS**

#### **VISCOSE**

Viscose is a soft, silky fabric made from the purified cellulose of trees. It is extremely soft and silky and absorbs moisture rapidly, ensuring highly breathable mattresses and pillows.

#### COOLM<sub>Λ</sub>X<sup>®</sup>

COOLMAX® is a high-performance fabric that uses an innovative fiber that stabilizes the body's moisture levels. Due to its special properties, COOLMAX® checks and regulates both skin temperature and body hydration and dries more rapidly than other fabric, keeping the body dry and cool.

#### **OUTLAST®**

It is a thermoregulatory fabric that was originally applied to the astronauts' space suits. The technology enclosed inside employs phase change materials. That is, inside there are millions of spheres made with a special wax that melts at a temperature of 36 degrees. As soon as the body temperature starts to rise, the technology goes into action, absorbing the excess heat. When the temperature starts to fall, the balls inside the material start to consolidate and release the accumulated heat. Thus, the ideal temperature remains constant and increases the regularity of your sleep.

#### SATIN VISCOSE

Viscose is a soft, silky fabric made from the purified cellulose of trees. It is extremely soft and silky and absorbs moisture rapidly. ensuring highly breathable mattresses and pillows.

#### WOOD

This pure cellulose yarn is ecological, healthy and is made from a careful mixture of timbers. It differs from other cellulose fabric due to the soft feel and its heat-regulating, odour-proof properties and its breathability.

#### TENCEL FABRIC

Tencel fabric is more resistant to wrinkling due to the silky smooth texture. It also tends to sleep cooler than cotton sheets, making them a good choice for hot sleepers.

#### EXCLUSIVE HEALTH BENEFITS

#### OPTIMUM BACK SUPPORT

These mattresses are designed to adapt to your body shape and type to provide the best support to your back.

ANTI-BACTERIAL,
ANTI-DUSTMITE
Good for skin sensitive to dust allergies.

#### ANTI-ALLERGY FABRIC

We use anti-bacterial, anti-dustmite and anti-fungus treated fabrics that have zero effect on sensitive skin.

#### ODOURLESS FABRIC

Made with materials always fresh and ready to use.

#### ANTI-FUNGUS TREATED

Build with fabrics and material with anti-fungal properties.

#### ZERO PRESSURE POINT

The patented memoform provides relief from painful stress points caused while lying down.

#### BABY SAFE

OEKO-TEX STANDARD 100 Annexure 4 certifies all products as safe for babies.

### **VIRTUOSO**

## FOR THE ONES WHO HAVE EVERYTHING ELSE IN LIFE

What you sleep on shouldn'tbe any lesser than the finer things you have achieved over the years. Virtuoso is a part of Magniflex's collection, one that combines elegant and rare natural fabrics with the goal to make your rest unique under the emblem of carefully handcrafted Florentine Lily.

## MATERIAL USED IN VIRTUOSO LUXURY MATTRESS

### SILK MON AMOUR

Silk is among the world's most beloved fabrics and is undoubtedly the thinnest natural fiber. Thin and strong, it is able to resist deformation, remaining soft and pleasant to the touch. Silk is also the fabric of choice because, being an excellent insulator, it keeps you warm during the winter and cool in the summer.

### MERINO WOOL, THE NOBLE FIBER

Merino wool is one of the finest animal fibers that is obtained from shearing the best sheep for their wool. This fiber is extremely thin, soft to the touch and allows the skin to breathe.

## THE FRESHNESS OF LINEN

Linen is the most suitable fiber for filling the summer side of a mattress since it offers a sensation of freshness when in contact with the skin. Besides, the molecular structure of linen absorbs the moisture released by the body during sleep and lets it evaporate.

## NATURAL COTTON

Cotton is a natural fiber, soft but durable. This material stands out for its great breathability, which keeps it cool when in contact with the skin. Cotton also stays dry, thanks to its structure which helps absorb moisture.

RARE CAMEL FIBER

Camel fiber is ideal for winter padding because its structure contains hygroscopic properties that absorb and dissipate the body's moisture and retain heat. The result is a microclimate that is always dry and pleasant.

## AN ANCIENT SECRET: HORSEHAIR

Horsehair, taken from the animal's tail or mane, is a fiber that has been used for generations to form the upholstery of beds and mattresses. This fiber is extremely durable and elastic, never loses its natural flexibility and easily regains the original shape of the mattress night after night for a comfortable and refreshing sleep. The horsehair also absorbs moisture to ensure a dry sleep environment.

## THE LUXURY OF NATURAL CASHMERE

Cashmere is a very soft animal fiber that withstands dirt and, above all, dust. Its extraordinary capacity to trap air gives it a high degree of heat insulation which ensures constant warmth even in winter.

## ARMONIA MEMOFORM DUAL

# SAD THAT YOU CAN'T FLAUNT IT LIKE THE OTHER FINER THINGS YOU OWN

## **MATERIALS USED**

ELIOFORM PATENTED MEMORY FOAM

The Ergo Tre Fixed adjustable base created by Magniflex consists of a structure in silver beech wood and ergonomically shaped plates that help to distribute the body's weight evenly on the entire surface.

### **FEATURES**

Wireless, Ergonomic plates for differentiated support of the body, Customized firmness adjusters, Corner bumpers, Rubber shock absorbers, Mattress retainers, and Separate adjustment of the height of the head, shoulders, torso, and legs. The bed base in the double version can be ordered as a single support surface or as two separate bases to be placed side by side. Starting with the size dimensions of 160 x190cm. Each part moves independently of one other (order cable Y for the single movement mechanism).

### SUPPORTING FRAME

The plates distribute the weight evenly over the entire surface occupied by your body while lying down and special shock absorbers respond to the body's weight based on key pressure points. The firmness adjusters on the plates allow you to adjust the firmness of the adjustable base based on your individual preferences, so that you have adequate support and can enjoy a refreshing and rebalancing rest. Thanks to the double joints and the handy remote control, you can independently adjust the height (and therefore the type of comfort) of the head, shoulders, torso and legs.

### MATTRESS RETAINERS

The retainers at the bottom of the adjustable base keep the mattress by sliding off the bed base.

### MOTOR UNIT

The motor built into each adjustable base -allow it to easily lift up to 110/120 kg. The motor allows you to separately adjust the height of the head and legs.

### PERIMETER STRUCTURE

The adjustable base consists of a silver-colored beech wood structure. The height of the frame is  $7 \times 2.5$ cm. In addition, there is a bumper around the rounded corners to smoothen out the hard edges and protect the shins.

### SUPPORT LEGS

The single and double version are supported by 4 legs each 30cm in height.

## MEMORY FOAM- RELAX STANDARD

Good sleep and good sleeping posture are also supported by the right pillow. A pillow with patented memory foam is long-lasting, easy to use, and implements weight-induced technology. This exclusive feature helps provide great support for your cervical area. With anti-dustmite and antibacterial-treated covers, one can ensure safe and hygienic sleep. Made with patented material, Magniflex ensures odourless, easy-to-clean, and easy-to-maintain pillows. Experience a memory foam pillow with many benefits.

## MAGNIGEL DELUXE STANDARD

Experienced heat and sticky head in the middle of your sleep? If yes, you may be sleeping on the wrong pillow. Magniflex Magnigel mattress uses a highly breathable material that helps dispose of the heat and allows great movement of air circulation. One pillow that comes with many qualities, highly recommended by the doctors, fabrics that are hypoallergenic, anti-fungal, and anti-dust mite treated makes you sleep deeper every night.

## VIRTUOSO MALLOW STANDARD

The pillows are part of sleep essentials and hold equal importance in your bedroom just as your mattress. So why compromise on the best pillow for the best sleep. A pillow that helps calm your nervous systems providing you with undisrupted sleep makes your day energetic and vibrant. The nervous system is the most important part of human well-being and when taken care of with the excellent support of a Virtuoso Mallow pillow, life is as beautiful and healthy as you can think of. Easy pillow covers with zippers which are easily dry cleanable.

## RELAX WAVE

The cervical spine needs extra care and support for a good night's rest. Waking up with a stiff neck can impact your daily routine. Pillows with ergonomic design take care of your neck and provide soothing properties that work excellent on your nervous system. Double comfort cervical pillow by Magniflex, takes care of your neck, shoulder, head, and spinal system. Viscose fabric which allows excellent air circulation through the night removes sweat and moisture. So finally a pillow that lets you sleep undisturbed without turning and twisting.

## MAGNIFLEX TRAVEL PILLOW

A Magniflex pillow made with patented materials that are odourless and its anti-bacterial and anti-dust mite-treated fabric is perfect for all skin types and safe for kids.
